V6 Minkowski at coordinate t = 1
Fraction of squared amplitude (%)
99.4%
0.584%
2.67e-06%
1.18e-07%
1.87e-07%
Core
Inner shell
Middle shell
Outer shell
Scri
Concentrated near the Cartesian core
Fraction of total squared amplitude (%)
Inner-shell radial cell index (0 = core side)
Unweighted tangent-coordinate norm; this is localization, not physical energy.
