Spatial component evidence — not a Schwarzschild evolution
Mapped derivative accuracy
Absolute derivative error
All-cell RMS
Maximum
Nodes per block direction
Periodic Cartesian AMR gauge solve
Recomputed original residual RMS
Penalty block: 400-step cap
Penalty block: extended cap
Interface-based block
Unchanged RMS target
PCG iteration
Boundary geometry limitation
Maximum unit-normal error
Outer nodes: |Ω| ≤ 2.3 × 10⁻¹⁶
Physical scri evolution: untested
Nodes per block direction
