Cell-centered transition audit — analytic truth, no time evolution
Oblique field: outer Cartesian region
Oblique field: common shell edge region
Radial field: outer Cartesian region
Radial field: common shell edge region
Hessian tensor RMS error
Shell intervals per block n
12
16
24
Cube-to-sphere, no overlap
Spherical: core L3, shell L3
Spherical: core L1, shell L3
Interpolated ghosts
Exact analytic ghosts
