Short wormhole trials: no long-time qualification
N=129 stops at t≈0.194; N=257 reaches 0.2. Elliptic reference uses a finer grid.
Exterior Hamiltonian
Exterior momentum
Apparent-horizon mass
Scri regularity
Exterior-weight-normalized RMS
$|M_{AH}/(1/3) - 1|$
Maximum numerator
Coordinate time
Hyperbolic N=129
Hyperbolic N=257
Elliptic reference N=1025
